DETAILED ACTION

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the title – used to hold a digital photography module on a mobile telephone—
has been added after apparatus.

Allowable Subject Matter

1. Claims 1 through 15 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a first component including a frame body, the frame body including a first opening, a plurality of folded sides extending from sides of the first opening and being bent with a predetermined angle; and a second component including a plane body, the plane body including a second opening and at least one engagement portion, the engagement portion being in a predetermined thickness and configured around the second opening', wherein the second component is coupled with the first component in the first direction, and the camera lens sequentially passes through the first opening and the second opening to protrude from the case surface, the folded sides prevent horizontal movement parallel to the plane of the first circuit board, and the engagement portion prevents vertical movement in the first direction of the first circuit board, thus immobilizing the digital photography module on the case surface of the

portable electronic device by the fixing apparatus. These limitations , in conjunction with all other limitations, have not disclosed , taught or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tilahun B Gesesse whose telephone number is 571-272-7879. The examiner can normally be reached on flexible schedule.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Urban can be reached on 571-272-7899.

The Central FAX Number is 571-273-8300. For patent related correspondence, hand carry deliveries must be made to the Customer Service Window (now located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), and facsimile transmissions must be sent to the Central FAX number, unless an exception applies.
